

SCIENCE INC.

Virtual Accelerator

Build. Scale. Grow.

The Science Inc.™ Accelerator is a virtual, cohort-based accelerator for early-stage startups in the sciences. Science Inc.™ helps founders advance their startup toward major goals and move their businesses more quickly toward success. The Innovation Space offers eligible startups an opportunity to apply for funding.

Over a **4 month period**, you will:

- Achieve critical business milestones with the guidance of expert coaches and business curriculum
- Build a strong network of entrepreneurs, business leaders, and peer founders
- Gain access to the Innovation Space's First Fund investment opportunity
- Access the Innovation Space community and coworking space

Upon graduation, you will be on the way to tackling your next business challenge – whether it is fundraising, building a product development process, or another hurdle.

Program Details

Every year, the Science Inc.™ Accelerator runs two virtual cohorts. One runs February-May and the second cohort runs September-December. Participating in the accelerator is **free of charge** and involves an approximate 30 hour per month commitment.

Programming includes:

Weekly workshops

with experts - on strategy, operations, fundraising, networking, business development, and more

Weekly 1-on-1 coaching sessions

about goal setting, business planning, and making progress

Pitch preparation

to develop a compelling entrepreneurial story and a powerful pitch

The experience concludes with a Demo Day event, where participants have the opportunity to pitch to the Innovation Space's investor community.

Qualifications

The Science Inc.™ accelerator is open to startups who have **developed technological innovation, completed foundational market research, and have started a business plan.** The scientific sectors include, but are not limited to:

Advanced Materials

Healthcare

Industrial and Agricultural Biotechnology

Nutrition

Chemical Ingredients

Renewable Energy

Diagnostics

Therapeutics

Investment Opportunity (Optional)

The Innovation Space offers Science Inc.™ applicants the additional opportunity to be considered for investment via our First Fund program. If a participating Science Inc.™ company is selected for First Fund, the Innovation Space invests \$50,000 via a convertible note, which includes \$25,000 in cash plus the \$25,000 cost of the program.

Science Inc.™ participants may opt to forego the investment opportunity and participate in the upcoming cohort free of charge.

What Businesses Are Saying About Science Inc.

Joining Science Inc. was like adding four rockstar founders to our team in one day.

Dalton Signor Science Inc. Cohort 1
Founder & CEO, Breatheasy

Participation in Science Inc. has opened doors for my company and taken us from an idea to a working prototype. The authenticity of the business lessons and hands-on mentorship have been valuable assets.

Dr. Jalaal Hayes Science Inc. Cohort 1
Founder, Elyte Energy
